

DEPLOY360

DEVSECOPS SOLUTIONS

Our comprehensive DevSecOps approach integrates security practices into every stage of software development. Which helps teams identify and address security issues early on. DevSecOps promotes collaboration, automation, and a culture of security awareness among development and operations teams.

Our Solutions:

- ✓ DevSecOps Management
- ✓ Application Development
- ✓ Automated Testing
- ✓ Synthetic Monitoring
- ✓ Quality Assurance
- ✓ The P8 Platform

Our P8 platform provides all the tools needed for a wholistic DevSecOps practice, while allowing flexibility, reliability and scalability.

Why Choose Us

The only solution that seamlessly brings together:

- Codeless automation
- Full lifecycle testing
- Expert resources
- Mobile device labs
- Docker containers with OS/Browser combinations
- CI/CD infrastructure

Customized for your organization!
