IT Developer

Location: Washington, DC

Type: Contract/Part-Time

Clearance Required: Public Trust Tier 2

Salary/Hourly Rate: Competitive, based on experience

Position Summary

Deploy360 is seeking a highly skilled IT Developer with experience in developing robust applications and backend services. The ideal candidate will have a strong background in C#, ASP.NET, AWS, and SQL, alongside experience in automating tasks, building user interfaces, and developing APIs.

Key Responsibilities:

- Develop and maintain web applications and backend services using C#, ASP.NET MVC, Web API, Node.js, JavaScript, jQuery, and CSS.
- Automate tasks using scripted languages like Bash, PowerShell, or Perl.
- Design and implement web services using MVC, WCF, and Web APIs.
- Create and maintain responsive, user-friendly interfaces using HTML, JavaScript, jQuery, Node.js, Bootstrap, and CSS.
- Manage and optimize data in relational databases using SQL, stored procedures, functions, and performance tuning.
- Develop web applications using ASP.NET Core, RESTful APIs, and Razor syntax for dynamic content generation.
- Implement security features like authentication, authorization, and data protection within ASP.NET Core.
- Ensure interactive and dynamic web experiences by leveraging jQuery for DOM manipulation, event handling, and AJAX.
- Utilize Bootstrap for responsive design, grid systems, components, and theme customization.

Qualifications:

- Bachelor's degree in an IT-related field (preferred).
- Proficiency with C#, ASP.NET MVC, Web API, Node.js, and cloud services (AWS).
- Experience with web development using HTML, JavaScript, jQuery, and CSS.
- Strong SQL skills, including stored procedures and performance tuning.
- Familiarity with RESTful APIs, MVC architecture, and ASP.NET Core middleware.
- Knowledge of dependency injection principles and Bootstrap grid systems.
- Experience with security best practices in software development.

Preferred Certifications:

- Certified Software Development Professional, Certified Secure Software Lifecycle Professional, GitHub Actions Certification, AWS Certified Developer

Additional Requirements:

- Public Trust Tier 2 clearance required. Background check conducted by Capitol Police for network access.
