Platform Engineer

Location: Fort Bragg – Fayetteville, NC

Position Summary

Deploy360 is seeking an experienced Platform Engineer with 6 to 10 years of hands-on experience in designing, building, and maintaining enterprise-level platforms. The ideal candidate will have expertise in Red Hat Linux, Docker, Kubernetes, and DevOps practices, coupled with the ability to operate in a secure and dynamic environment with experience working in on-premise environments. Your work will directly support mission-critical systems and infrastructure.

Key Responsibilities

- Design, implement, and maintain platform solutions based on Red Hat Linux.
- Containerize applications and manage deployments using Docker.
- Deploy, orchestrate, and maintain Kubernetes workloads in enterprise environments.
- Implement CI/CD pipelines and Infrastructure-as-Code (IaC) to automate build, deployment, and configuration workflows.
- Troubleshoot system, performance, and deployment issues across distributed environments.
- Monitor and optimize platform performance using industry-standard logging and observability tools.
- Collaborate with cross-functional engineering, security, and operations teams to ensure platform reliability, scalability, and compliance.
- Evaluate new technologies and recommend improvements to existing system architecture.
- Support operations in secure, mission-critical, on-premise and cloud-integrated environments.

Required Qualifications

- 6–10 years in platform engineering, systems engineering, DevOps, or related technical fields.
- Bachelor's degree in Computer Science, Engineering, or a related field.
- Red Hat Linux administration (enterprise environment).
- Docker containerization and Kubernetes orchestration.
- CI/CD pipeline development and automation tooling.
- Infrastructure-as-Code (e.g., Ansible, Terraform, etc.).
- Monitoring and logging systems for distributed platforms.
- Experience working in on-premise environments
- Strong analytical and problem-solving ability.
- Effective communication and collaboration skills.

Clearance Requirement

- Active Top Secret with SCI eligibility

To be considered for the position, please email, info@deploy360.us and include your resume.
